KL100

Software Screen Shots

Pharmacy technicians quickly find patient orders on the bright touch screen. Information for nine orders at a time are displayed.

The KL100 software provides multiple safeguards and controls, and tracks information about every dispensed order.

The KL100 shows full cassette information of all 100 cassettes, including empty cassettes, empty slots, par level, etc.

KL100

"FillSafe™ " security system prevents unauthorized filling, depleting or switching medications in any of the 100 cassettes.
