

KL1 Tablet Counter

Compact and Accurate Counting Device

The most compact tablet counter ever, with world-renowned counting accuracy inside.

- Saves Time: Faster and more accurate than manual counting.
- Compact design; Just 14.6" H x 5.6" W, fits into any crowded workspace.
- Inventory mode: keeps count when tray is emptied; count capacity of 9,999 tablets.
- Ergonomic tray with left / right pouring.
- No calibration needed; counts almost any tablet or capsule.
- Simple to clean.
- Ideal check-counter for Pharma / Industrial QC.

The KL1 is ideal for all prescription filling, from 30-counts to 90-day fills, and inventory (especially narcotics).

The ergonomic tray allows quick pouring from the left or right side.

New!
Design Update

The KL1 quickly counts almost any tablet or capsule.

National Study

KL1 is 6-14 seconds faster than hand-counting (60- to 90-count)

KL1 Details

Preferred Counting Technology: Best-selling counting device worldwide. Easier and faster to use than outdated scales and cumbersome tray-and-spatula methods.

Fast: KL1 handles a 60-count Rx an average of 6.3 seconds faster than hand-counting, and 14.3 seconds faster for a 90-count Rx. Throughput up to 15 tablets/second.

Essential Inventory Tool: Maintain absolute inventory accuracy, especially for controlled medications (manual counting methods are only 95% accurate at best).

Design Update: Better accommodates a variety of tablet-pouring techniques.

Free Up Time, Redeploy Staff: Using Kirby Lester counting technology frees up valuable time for customer service and profit-driving initiatives.
